

# lowAccess Organizational Structure

Over 250 lowans participate in lowAccess. Because lowAccess projects are focused on the customer -- whether a business, student, citizen, or government employee -- great efforts were made to involve the public in developing and implementing these projects. With early public participation, lowAccess projects will be constructed with the customer in mind. *Customer service is the central concept in lowAccess.*

Participation	39%	State Government
	29%	Citizens & Private Business
	20%	Local Government
	12%	Federal Government
